Hi everyone,

The department has introduced a really useful platform for us to have questions answered and issues resolved in real time by senior staff on our programme and department.

You can post and comment anonymously, which I think is really helpful.

We as reps are here to support and escalate representative feedback through the platform quickly.

It's called Unitu - all students accounts are already created by the department, so no need to sign up to anything.

To log in go to this link: uni.unitu.co.uk.
