

Title: Do you know who your courses reps are?

Description:

Hi everyone!

My name is Cheryl and I am the student rep for Bsc Sociology year 1! I want to introduce myself to you and let you know that my role is to help get your voice heard, ensure staff listening and engaging with your feedback and that together we make improvements to our educational experience in a timely way.

We're using Unitu, a student voice platform that has been rolled out by our department for you to share your ideas, questions, issues and even praise about what's working and what's not on your programme. You can share and comment anonymously too!

So feel free to drop a comment below, let me know what you're currently enjoying and what's frustrating you on your course or general experience at Uni!

Thank you.
