Subject:  Vote on getting [specific feedback] solved by staff

Hey everyone,

I know that many have been experiencing [feedback type, e.g. issues] with [feedback content, e.g. lecture cast]. There is a post created on Unitu, our student voice platform. The more votes and comments we gather on it, the faster I as a rep will be able to escalate it to staff on Unitu to engage and resolve the issue.

If you have any issues logging in, let me know.

Please give a thumbs up and comment if you'd like to see this issues solved by staff.

Thanks,
